

A person wants to adjust their notification settings to remind them 1 hour in advance.

The flowchart illustrates the steps to achieve this:

- Home Screen:** Shows the time 10:XX AM, date October 2025, and a calendar grid. An arrow labeled "Click settings" points to the Settings app icon.
- Settings App:** Shows the "Settings" menu with options like Notifications, Themes, Lockdown, and Accessibility. An arrow labeled "Press on 'Notifications'" points to the Notifications option.
- Notifications Settings:** Shows the "Notifications" settings page with options like Settings, Sounds, and Remind in Advance. An arrow labeled "Press 'Remind in Advance'" points to the Remind in Advance option.
- Remind in Advance Settings:** Shows the "Remind in Advance" settings page with a dropdown menu set to "10 mins to 3 hrs". An arrow labeled "Drop down menu, lists between 10 mins to 3 hrs" points to the dropdown menu.
- Final Selection:** The dropdown menu is shown with "2 hours" selected. An arrow labeled "Press 'Done'" points to the Done button.

A student's club meeting gets canceled and they want to remove it from their calendar.

Home screen: A phone icon with a calendar app icon.

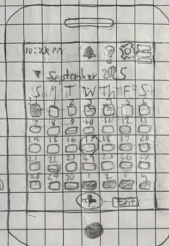

Calendar app: A calendar view for October 2025. The date 13 is highlighted. A note says "Pers. 'Event' Button" with an arrow pointing to the date 13.

Event details: A screen showing "October 2025" and "Editing". Below it, a calendar icon, "Club Meeting", "6:00 PM", "Notes", and "Location: 123 Main". A note says "Tap Date that you wish to edit (ie. the 27th)" with an arrow pointing to the date 27.

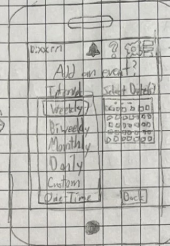

Confirmation: A screen asking "Are you sure you would like to remove: Club Meeting?". Below it are "Yes" and "No" buttons. A note says "Press button to remove Event" with an arrow pointing to the "Yes" button.

# College student adding weekly piano lessons to their calendar

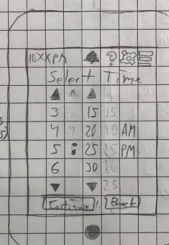

Clicking on a date will pull up a menu with all events and notes related to that day

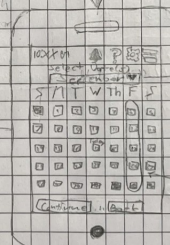

Click + button

Scrolling interfaces (1-12, PM, AM/PM) also moved up/down to select

Customize button

Selected dates represented by a smaller outline

Final view: Buttons lead to calendar with updates (now and)

Dates with an event look like this:
